Additional Support

Have you implemented additional actions to assist

Additional Support

If yes, please explain in detail:

- Provided resources to clients for testing
- Forwarded all general wellness articles to participants
- It is an opportunity to show our participation in the system and a steady voice in the midst

Financial Impact

What has been the financial impact of the pandemic?

- Some additional expenses for PPE,
- Purchased supplies such as masks
- Purchased technology supports - laptops
- Additional expenses have been taken

Lasting Changes

What lasting changes, if any, do you see resulting from the new system?

- Once over, I think it is an opportunity to assess how we can do so more effectively and in a way that suits the needs of the court.
- One of the positive changes I would like to continue is the incentive for our participants. And I for-see a number of changes attending court, groups, and case management.
- Positive outcomes will be continued utilization of the program from home if needed. The delay and possible reduction in costs are evidence-based programs that have proven to be a better use of care (that has been ongoing in our program for many years).
