Lake County Proposed Integration Initiative Between the Circuit Clerk System and the Prosecutor System

Primary Data Exchanges

The primary data exchanges between the State's Attorney's Office and the Circuit Clerk's Office will include the creation of Felony or Misdemeanor cases, Amended Charges, Court Scheduling and Sentencing / Disposition notifications.

The primary difference between Misdemeanor and Felony cases is in workflow, not data transfer.

Where applicable, the Global Justice XML standards will be incorporated into Lake County justice data exchanges.

XML Requests to the Circuit Clerk's System

1. To add a Case (Information or indictment).
2. To inherit a Case from the Circuit Clerk's System.
3. To verify the existence of a case using citation number, charge document and arresting agency.
4. To file an Information on an existing case.
5. To file an Indictment on an existing case.
6. To file Amended Information.

XML Requests from Circuit Clerk's System

1. To push Misdemeanor cases.
2. To push court minutes.
3. To push any *sentencing* order pertaining to the State's Attorney's Office.

Secondary Data Exchanges

Other data exchanges (XML Requests) between agencies include:

Felony Conviction Order
Juvenile Conviction Order
Misdemeanor Conviction Order
Nolle Order
Order for Court Supervision
Order for Probation
Order for Street Value Fine

Restitution Order
Order of Commitment to Department of Corrections
Motion/Order for Defendant to Submit Blood Specimen
Motion/Order for Defendant to Submit to ME including BS
Motion/Order for Defendant to Submit to HIV Testing
Motion/Order to register as a sexual Predator
Generic Motions/Orders
Petition for Revocation Sentence
Petition for Rule to Show Cause
Information Warrant
Search Warrant
Summons
Writ of Habeas Corpus
Answer to Discovery
*Court Minutes

Each of these secondary data exchanges may reference an existing case with an appropriate Court Case Number.
