A. Program Description

Background

Law enforcement agencies and other first responders have recognized that overreliance on arrest and subsequent prosecution of low-level offenders with substance use disorders does not enhance community safety or effectively reduce demand. Individuals repeatedly cycle through the criminal justice system without adequate treatment and support to address their disorders. In response, law enforcement agencies and other first responders have crafted models to reduce demand by deflecting individuals with substance use disorders from involvement in the criminal justice to treatment and services. These models are built on police and other first responders' partnerships with community health and substance use disorder treatment organizations. The goal of this solicitation is to increase public safety by reducing the significant social and economic cost of drug misuse by emphasizing the use of treatment over criminal justice involvement.

The Illinois Criminal Justice Information Authority administers the Community-Law Enforcement and Other First Responders Partnership for Deflection and Substance Use Disorder Treatment Act Program in Illinois, hereafter referred to as CLEP provides law enforcement officers and other first responders critical funding to facilitate connections to community-based behavioral health interventions that provide substance use treatment, help reduce drug usage, reduce drug overdose incidences and death, reduce criminal offending and recidivism, and help prevent arrest and conviction records from destabilizing health, families, and opportunities from community, citizenship, and self-sufficiency.

Authorizing Statutes

The People of the State of Illinois, represented in the General Assembly, created the Community-Law Enforcement and Other First Responder Partnership for Deflection and Addiction Treatment Act (Public Act 101-0652. This Act allows a law enforcement agency to establish a program to facilitate contact between a person and a licensed substance abuse treatment provider for assessment and coordination of treatment.

Section 7(k) of the Illinois Criminal Justice Information Act (20 ILCS 3930/7(1)) establishes ICJIA as the agency to "To receive, expend, and account for such funds of the State of Illinois as may be made available to further the purposes of [the Illinois Criminal Justice Information Act]."

Section 35(a) of the Community-Law Enforcement and Other First Responder Partnership for Deflection and Addiction Treatment Act authorizes the Illinois Criminal Justice Information Authority to fund law enforcement agencies for services provided by deflection program partners as part of deflection programs subject to subsection (d) of subsection 15 of the Community Law Enforcement and Other First Responder Partnership for Deflection and Addiction Treatment Act.

Public Act 101-0637(Article 93, Section 50) The amount of \$500,000, or so much thereof as may be necessary, is appropriated from the General Revenue Fund to the Illinois Criminal Justice

Information Authority for grants to local law enforcement agencies for activities pursuant to the Community-Law Enforcement Partnership for Deflection and Addiction Treatment Act.

The agency must comply with all applicable provisions of state and federal laws and regulations pertaining to nondiscrimination, sexual harassment and equal employment opportunity, including, but not limited to the Illinois Human Rights Act (775 ILCS 5/1-101 et seq.), Public Works Employment Discrimination Act (775 ILCS 10/1 et seq), United States Civil Rights Act of 1964 (as amended) (42 USC 2000a-and 2000H-6), Section 504 of the Rehabilitation Act of 1973 (29 USC 794), Americans with Disabilities Act of 1990 (42 USC 12101 et seq.), and Age Discrimination Act (42 USC 6101 et seq.).

Program Design

Awards resulting from this opportunity will have a projected period of performance of November 1, 2021 through June 30, 2022. Contingent on future state fiscal year appropriations and satisfactory performance, ICJIA staff may recommend to its Board a maximum of an additional two 12-month grants for each project. Funding amounts in future years may be adjusted depending on appropriation.

Definitions

Deflection program is a program in which a peace officer or member of a law enforcement agency or other first responder facilitates contact between an individual and a licensed substance use treatment provider or behavioral health clinician for assessment and coordination of treatment planning.

Treatment is the broad range of emergency, outpatient, intensive outpatient, and residential services and care (including assessment, diagnosis, case management, medical, psychiatric, psychological and social services, medication-assisted treatment, care and counseling, and recovery support) which may be extended to persons who are diagnosed with substance use disorders, persons with mental illness, or families of those persons.

Other first responder includes emergency medical services providers that are public units of government, fire departments and districts, and officials and responders representing and employed by these entities

Community-Law Enforcement Partnership Models

Applicants may apply for funding for one or more of the five models, and/or similar types of deflection models, outlined below:

Model 1

Post-Overdose Response. This model features a response initiated by a peace officer or law enforcement agency or other first responder subsequent to emergency administration of medication to reverse overdose, or in case of severe substance use disorder with acute risk of

overdose. The post-overdose response may be multi-disciplinary and may include the distribution of naloxone, in-person contact, relationship building, and access to treatment. Example: Quick Response Team.

Model 2

Self-Referral Response: This response is initiated by an individual contacting a peace officer or law enforcement agency or other first responder in acknowledgement of their substance use or disorder. Examples: Safe Passage, A Way Out.

Model 3

Active Outreach Response: This response is initiated by a peace officer or law enforcement agency or other first responder as a result of proactive identification of persons thought likely to have a substance use disorder.

For more information on the Active Outreach Response, go to:

[*Law Enforcement Assisted Diversion \(LEAD\)*](#) - LEAD can be used in an outreach, self-referral, or officer intervention framework.

Model 4

Community Engagement Response: This response is initiated by a officer or other first responder prevention deflection response initiated by a peace officer of law enforcement agency in response to a community call when no criminal charges are present

For more information on Community Engagement Response, go to:

Please describe the geographic area(s) to be served by the program. A geographic area may be an administrative area with distinct boundaries (e.g, a city, community with distinct boundaries), a neighborhood with a commonly used name, or a set of north/south/east/west street boundaries. Where applicable and feasible, please be		25

specific about service boundaries. Describe the demographic characteristics of your service area. To achieve this, it may be necessary to compare the service area to other geographic areas.	
Report data demonstrating that the war on drugs has impacted your service area. Potential data sources include arrest records from local law enforcement agencies (e.g., drug-related arrests) and prison/jail admission records from state or county facilities. 2. Review and Selection Process.

All applications will be screened for completeness. Incomplete applications will not be reviewed.

Proposals that pass the screening process will be reviewed by a panel of ICJIA grant, research, and program staff.

The proposal narrative is composed of two sections: Program Narrative/Budget and Assessment of Funding Priorities. Each section will be worth up to 100 points and weighted to determine the final score. The Program Narrative/Budget section will be weighted toward 75% of the final score, and the Assessment of Funding Priorities section will be weighted toward 25% of the final score. *For example: An applicant achieves a score of 80 points for the Program Narrative/Budget section, and 100 points for the Funding Priorities section. The final score will be calculated as $(80 \times 75\%) + (100 \times 25\%) = 60 + 25 = \text{Final Score of } 85$.* The final score will be used to determine the order in which applicants are offered funding.

Note that the Program Narrative/Budget score must receive a minimum of at least 70 points (before the weighting) to be considered for funding. Applicants that do not receive a minimum score of at least 70 points on the Program Narrative/Budget section will not be considered for funding.

ICJIA reserves the right to reject any or all proposals it determines to be incomplete, that include unallowable activities, that fail to meet program requirements, or are otherwise deemed to be unsatisfactory. ICJIA also reserves the right to invite one or more applicants to submit amended proposals and to modify budgets which include unallowable or unreasonable costs.

Review team recommendations will be forwarded to ICJIA's Budget Committee for approval. Applicants will be notified of the Budget Committee's decision.

Requests for debriefings must be made in writing and submitted within seven calendar days after receipt of a Funding Opportunity Declination Letter from ICJIA.
