

I-UCR Property Arrest Rate Per 100,000 People CY2008

I-UCR Property Arrest Rate per 100,000 People CY1999 – 2008

- Property Index arrests include four major categories: arrests for burglary, theft, motor vehicle theft, and arson. Definitions of these offenses can be found in the latest edition of Crime in Illinois. Characteristics of persons arrested are not collected in Illinois' current Uniform Crime Reporting (I-UCR) program. Further, it is not possible to identify juvenile arrestees separate from adults.
- In 2008, there were 74,415 reported arrests for property crimes. The map shows the distribution of these arrests by county, in terms of rate per 100,000 persons.
- Seventy-seven percent of reported property arrests were for theft, 14 percent were for burglary, 8 percent were for motor vehicle theft, and 1 percent was for arson.
- In 2008, the property arrest rate was 683 per 100,000 persons in Cook County; 452 per 100,000 persons in the Northern region minus Cook; 565 per 100,000 persons in the Central region; and 585 per 100,000 persons in the Southern region. (See map for these geographic regions).
- In Illinois, the rate of reported property index arrests decreased 27 percent from 1999 through 2008 (from 789 per 100,000 persons to 579 per 100,000 persons).
- From 1999 through 2008, the rate of reported property Index arrests decreased in every category with four exceptions: burglary arrest rates increased by 3 percent in the Central region and 23 percent in the Southern region, and arson arrest rates increased by 20% in the Central region whereas theft arrest rates in the Southern region increased by 4 percent.
