120 South Riverside Plaza • Suite 1016 • Chicago, Illinois 60606 • (312) 793-8550

---

Memorandum

**To:** Authority Members

**From:** Janice A. Cichowlas, Associate Director  
Research and Analysis Unit

**Date:** February 8, 2006

**Re:** Research and Analysis Unit Report for the March 3, 2006 Authority Meeting (November 2005 – February 2006)

---

This memorandum highlights some of the work performed by staff of the Research and Analysis Unit since the Authority's last quarterly meeting. Please note that the webmaster is now reporting to the Office of General Counsel, although this Unit continues to work closely with web-related projects.

The Research and Analysis Unit is continuing with its year-long planning process to determine the criminal justice research needs in the State of Illinois. The statewide needs assessment is wrapping up and this Unit will be analyzing the findings during the next quarter. The Planning and Research Committee of the Board met on December 2nd, 2005. An update on the planning process was given and selected research projects from the Research and Analysis Unit were highlighted. The next meeting of the Planning and Research Committee will be for the purpose of reporting the findings of the statewide criminal justice needs assessment. We will then present the findings to the Budget Committee of the Board for their review, as well as to the full Authority Board.

Efforts are underway to hold a statewide fall criminal justice research conference in collaboration with other criminal justice research partners. The purpose of the conference will be address the issue of closing the gap between research and practice, and building successful partnerships in criminal justice. This conference is in the planning stages and more information will follow next quarter.

## I. ONGOING ACTIVITIES

### A. Publications

New publications since the last Authority Board meeting include:

Research Report: " Evaluation of the Chicago Public Schools Peer Jury Program: Year One – Academic year 2004-2005"

Research Bulletin: " A profile of Class 4 felony offenders sentenced to prison in Illinois "

Research Bulletin: " Assessing disproportionate minority contact with the Illinois juvenile justice system "

Research Bulletin: " Screening for serious mental illness among offenders "

#### Journal publications:

Paper to be published in *Violence and Victims*, first issue of 2006: "Risk factors for femicide-suicide in abusive relationships: results from a multi-site case control study."

Paper submitted to *Homicide Studies*: "Arson and Fire-Associated Homicides in Chicago — 1965 to 1995."

Paper submitted to *A Critical Journal of Crime, Law and Society*: "Seeking help from the police: Battered women's decisions and experiences".

Paper submitted to *Journal of Interpersonal Violence*: "Intimate partner violence and miscarriage: Examination of the role of physical and psychological abuse and PTSD".

Paper submitted to *Women's Health and Urban Life*: "Forced sex during and after exiting intimate relationships: Results of the Chicago Women's Health Risk Study."

Other publication releases slated for completion before the meeting include:

- Research Report: Methamphetamine: Quick Facts – Trends in Measures of Methamphetamine Activities in Illinois' Eighth Judicial Circuit
- A series of five guidebooks on balanced and restorative justice.
- The 2005 CHRI Audit Report

## **B. Briefings/Presentations**

Since the last Authority meeting, R&A staff made presentations at, and/or attended meetings of the:

- American Society of Criminology
- Authority Research and Planning Committee.
- Illinois Governor's Statewide Community Safety and Reentry Working Group.
- Redeploy Illinois Oversight Board.
- Illinois Balanced and Restorative Justice Initiative.
- AOIC's Evidence-Based Programming Initiative Statewide Policy Group.
- AOIC's Evidence-Based Programming Initiative Research Subcommittee.
- Office of the Attorney General Methamphetamine Healthcare Advisory Committee research-working group.
- Southern Illinois Methamphetamine Awareness Conference.
- Illinois Methamphetamine Advisory Committee.
- Illinois Motor Vehicle Theft Prevention Council and Grant Review Committee.
- Crime Analysts of Illinois Association meetings.
- Chicago Crime Commission Child Exploitation and Prostitution Coalition Meeting.
- Office of the Attorney General Illinois Youth Court Association Advisory Board.
- Illinois Juvenile Detention Alternatives grant sites meeting.
- Illinois Juvenile Detention Alternatives partners meeting.
- Illinois Association of Drug Court Professionals.
- Illinois Victim Assistance Academy Steering Committee
- Domestic Violence Curriculum and Training Task Force Meeting.
- Midwestern Governors Association's Regional Methamphetamine Summit
- Citywide [Chicago] BARJ Committee.
- Illinois Department of Juvenile Justice Transition Team.
- Illinois Department of Juvenile Justice Transition Team-Evaluation Subcommittee.
- Illinois Department of Juvenile Justice Transition Team-Training Subcommittee.
- Illinois State Bar Association Mid-Year Meeting.
- The University of Illinois' Jane Addams Substance Abuse Research Collaboration Group
- Illinois Integrated Justice Information Systems Privacy Committee, Implementation Board, and Planning and Policy Committee meetings
- Illinois Research Advisory Council on Crime and Justice
- Recommendations from the Reception & Classification (R&C) System Subcommittee. Presented to the Governor's Community Safety & Reentry Commission and Executive Working-group, Chicago IL, December 2005.
- How to Know What's Working (and What's Not) in Community Corrections and Why It's Important. Presented at the 2006 American Probation and Parole Winter Training Conference, Austin, TX, January 2006.
- The Emergence of Methamphetamine in Illinois: Context and Considerations for Justice and Treatment Practitioners. Presented at the 2006 Substance Abuse Training and Information Network (SUSTAIN) Training Conference, College of Lake County, Grayslake, IL, January 2006.

### **C. Criminal Justice Information Clearinghouse**

The Authority serves as a statewide clearinghouse for statistics and other information about the criminal justice system. Between October 1 and December 31, R&A staff responded to 225 requests from people seeking information — an average of 75 requests per month. Most came from the general public (41 percent) and other governmental agencies (26 percent). Other requests came from private agencies (15 percent), researchers (11 percent), students (5 percent), news media representatives (<1 percent), legislators (<1 percent), and prison inmates (1 percent). About 28 percent of the requests originated in the Chicago metropolitan area. Forty-one percent originated in other parts of the state. All other requests for information were received from outside Illinois (17 percent) and unknown areas (15 percent). R&A distributed 5,964 Authority publications during this period. *[TABLE 1 (attached) provides statistics for the latest state fiscal year quarter.]*

### **D. Website Development**

R&A staff continued development of the Authority's website ([www.icjia.state.il.us](http://www.icjia.state.il.us)). During the past quarter, staff have completed the addition of archived publications to the website. We also continue to actively gather user satisfaction information and other feedback online. The site averaged more than 2,137 daily user sessions during this period, in which a quarterly record 105,656 publications were downloaded from the website. In addition, 2,033 registered users currently receive the e-mailed *CJ Dispatch*, automatically alerting them to the latest information added to the site. Staff continue work on database applications and new software for the site, which will allow visitors to download, display, and graph data in a variety of formats. *[Table 2 (attached) presents website statistics for the latest state fiscal year quarter.]*

The Authority's website administers the CWHRS Forum, focusing on research and policy issues related to the risk of intimate partner homicide. The CWHRS Forum has 83 registered users. The forum requires little staff time, but members say that it is very useful to them.

Authority staff are also in the initial stages of developing web-based on-line training for a variety of Authority projects, including INFONET.

### **E. FSGU Support Efforts**

Upon request, R&A staff review and comment on proposed program narratives submitted by potential grantees to FSGU. The focus of R&A comments are in the areas of proposed objectives, goals, and performance measures. FSGU staff also request R&A assistance in the development of data reports for proposed programs. R&A staff continued to work with FSGU staff responsible for the VAWA and JAIBG funds to develop data reports for grantees that include the federally mandated performance measures. This effort will allow federal agencies to improve their reporting of the performance of these grant programs at the state and federal level. R&A staff has also assumed responsibility for the computerization of some program performance data and, upon FSGU request, produced program status reports and/or profiles assessing performance over a given period of time. *[Table 3 (attached) presents FSGU support statistics for the latest state fiscal year quarter.]*

## **F. Technical Assistance**

R&A staff are frequently asked to provide a variety of technical assistance on extra-agency research and evaluation, and program implementation projects. Since the last Authority meeting:

- Staff worked with a detective from the Chicago Police Department Cold Case Unit to provide information from the Chicago Homicide Dataset (CHD) on a pending homicide case from the 1980s. Staff provided CHD data to the Cold Case Squad, and presented a two-hour overview of the CHD to 15 detectives. Staff will continue to provide CHD data to the Cold Case Squad through a secure and confidential section of the Authority's web site.
- Staff continued to provide limited assistance to several third-party research projects involving studies of individuals' criminal history records.
- Staff advised the developers of an interviewer training document for a no-contact order project about how to train interviewers for a domestic violence project, based on CWHRS experience.
- Staff reviewed articles submitted for publication to professional journals, including *Criminology* and *Justice Quarterly*.
- Staff provided technical assistance to the Administrative Office of the Illinois Courts Illinois Juvenile Detention Alternatives Initiative (IJDAI) regarding the collection of performance measurement data from IJDAI pilot sites.
- Staff reviewed research articles submitted for publication to *Justice Research and Policy*.
- Staff continued to serve on an advisory board for the National Violent Injury Statistics System (NVISS), Harvard University, and Centers for Disease Control, consulting on how to make NVISS data accessible to a practical audience.
- Staff continued to participate with and support the Illinois Attorney General's Methamphetamine Healthcare Advisory Committee's Research Working Group.
- Staff continued to participate with and support the Southern Illinois Methamphetamine Awareness Conference.
- Staff continued to serve on an advisory committee for the Illinois Violent Death Reporting System, a joint project of the City of Chicago Mayor's Office, the city's Department of Public Health, Illinois Department of Public Health, Chicago Police Department, and Cook County Medical Examiner's Office to develop better data regarding violent deaths in Illinois.
- Staff continued to serve on the Illinois Methamphetamine Advisory Panel, a joint project of the Drug Enforcement Administration, U.S. Attorney's Office, Illinois Attorney General's Office, Illinois State Police, Illinois Law Enforcement Training and Standards Board, Illinois Sheriff's Association, Illinois Association of Chiefs of Police, and Illinois Drug Officer's Association to discuss the growing threat of Methamphetamine abuse in Illinois.

- Staff continued to participate on the advisory board for the evaluation of the Domestic Violence Helpline, administered by the City of Chicago Mayor’s Office on Domestic Violence.
- The SSN (Social Support Network scale, developed by the CWHRS project) has been accepted for inclusion in an archive of scales, the HaPI (Health and Psychosocial Instruments) database. Staff have been working with the Department of Human and Community Development at the University of Illinois and the Harvard Medical School, and the Department of Human and Community Development at University of Illinois, Urbana.
- Staff continued to advise users of the Chicago Homicide Dataset and the Chicago Women's Health Risk Study dataset, both of which are archived in the National Archive of Criminal Justice Data.
  - Staff continued to provide technical assistance to the International Association of Women Judges, on results of the CWHRS that have practical implications to the courts.
  - Staff continued to provide technical assistance to the Wisconsin Coalition Against Domestic Violence, in their annual Homicide Report.
  - Staff are working with the Illinois State Police to develop policy and processes that will facilitate efficient dissemination of criminal history record information for research purposes.
  - Staff are serving on the multi-state advisory board for the National Institute of Justice supported research project entitled “Evaluation of Multijurisdictional Task Forces-Phase II,” an evaluation being conducted by Abt and Associates, which includes the states of Colorado, Tennessee, and Georgia.

#### **G. Deaths in Custody Reporting**

The Deaths in Custody Reporting Act (DICRA) (P.L. 106-297, effective Oct. 13, 2000) requires states to compile and report quarterly to the U.S. Department of Justice’s Bureau of Justice Statistics (BJS) the number of deaths, and the circumstances surrounding the deaths of people in local jails, state prisons, juvenile correctional facilities, and law enforcement custody. Until recently, the information requested by BJS was limited to deaths in local jails, state prisons, and state juvenile facilities. Collection of DICRA information has been expanded to include deaths that occur while a person is in police custody or in the process of arrest. Information on deaths that occur while a person is in police custody will supplement the annual data on prison inmate deaths that BJS already receives from the Illinois Department of Corrections as part of the National Prisoners Statistics Program and the National Corrections Reporting Program. R&A staff began in July 2004 collecting specific information requested by BJS for all deaths in Illinois that occur while the person is in police custody or in the process of arrest by local, county, and state law enforcement agencies regardless of cause of death. For reporting purposes, the data include:

- Deaths occurring when an individual is in the physical custody, or under the physical restraint, of law enforcement officers, even if the person was not formally under arrest.
- Deaths that occur by natural causes, while in the physical custody, or under the physical restraint, of law enforcement officers, even if the person was not formally under arrest.
- Those killed by any use of force by law enforcement officers prior to booking
- People who died at a crime/arrest scene or medical facility prior to booking.
- Deaths occurring in transit to or from law enforcement facilities.
- Deaths of those confined in lockups or booking centers (facilities from which arrestees are usually transferred within 72 hours and not held beyond arraignment).

Retrospective summary data on deaths in law enforcement custody during the period of January 1, 2003 through June 30, 2004 were submitted to BJS in the fall of 2004. Since then, Staff have been reporting quarterly data on death in law enforcement custody to the Bureau of Justice Statistics. Reports for the fourth quarter of 2005 will be submitted shortly.

## **II. CURRENT PROJECTS**

### **A. Balanced and Restorative Justice (BARJ) Implementation Guides**

R&A staff are finalizing a series of profession-specific BARJ implementation guides for law enforcement, prosecutors, defense attorneys, judges, and probation officers. These five guides were sent to the printer in February 2006. Additional guides for corrections and detention centers are currently under review.

### **B. Commitments to the Juvenile Division of the Illinois Department of Corrections**

This is a short-term research project intended to describe the characteristics of youth who have been committed to Illinois Youth Centers in 2004. Data analysis is under way and a final draft of the Research Bulletin should be completed in Spring 2006.

### **C. Assessment of prior victimization and access to services among adult female inmates in the Illinois Department of Corrections**

This project is designed as an assessment of the prevalence of prior victimization, primarily domestic violence and sexual assault/abuse, among adult female inmates within the Illinois Department of Corrections. Through an examination of existing data collected during the Reception and Classification process at the Dwight Correctional Center, the research team will determine the prevalence of these forms of prior victimization, examine those inmate characteristics correlated with prior victimization (i.e., demographic, socio-economic, criminal and substance abuse history, and mental health), and gauge the access to IDOC services among those with histories of victimization. Staff are awaiting the release of data from IDOC. The final report on this project is scheduled for 2006.

### **D. Illinois Substance Abuse Monitoring Network**

R&A staff, in collaboration with the Department of Human Services' Office on Alcoholism and Substance Abuse established an Illinois Substance Abuse Monitoring Network. This group functions

as a special workgroup to facilitate the exchange and analysis of information regarding the nature and extent of drug use, drug abuse, and drug markets in Illinois. The group has met twice and the next meeting is being planned.

### **E. Criminal History Record Information (CHRI) Audit**

The unit's Criminal History Record Information (CHRI) Audit Center is an ADAA-funded in-house effort to continuously examine the accuracy, completeness and timeliness of this information, and to recommend strategies for improvement.

The current audit project is winding down. Auditors conducted site visits in 13 counties and collected arrest, submission, and charging data from each county. The data has been analyzed to determine the timeliness of reporting and entry into the central repository, accuracy of arrest information and completeness of repository records for agencies using electronic reporting methods. The draft text of the final report is being refined in preparation of inter-agency review and edit.

As electronic reporting becomes more common for criminal justice agencies, more states are publishing related audit methods and findings information. Auditors have begun the information gathering phase of planning a complimentary audit project that will examine electronic reporting of court and custodial data.

Audit center staff continue to provide technical support to the Authority's Federal and State Grants Unit (FSGU). Staff provide CHRI data quality and reporting information, along with data interpretation to assist grants staff in making LiveScan or other CHRI-related funding recommendations.

Illinois Integrated Justice Information Systems Project. Audit staff chaired the Booking/Rap sheet Sub-Committee of the Illinois Integrated Justice Information Systems (IIJIS) Planning and Policing Committee. The sub-committee has completed a draft business plan which identifies the issues associated with standardized rap sheets and booking data. The goal of the standardization is to facilitate electronic integration for data sharing within or between agencies. In addition to the sub-committee duties, audit staff has provided assistance to the IIJIS project during the search for a new project director.

CHRI Data Ad Hoc Connection. The CHRI data ad hoc connection is an electronic connection to criminal history record information housed by the Illinois State Police. Access to CHRI data allows ICJIA to query the data housed on the computerized criminal history database. Staff is working to finalize the developed procedures and policies for data use and sharing, standardized queries, and documentation of the elements, accessible via the ad hoc data connection.

## **F. Chicago Homicide Dataset Update Project**

The Chicago Homicide Dataset has been collected and maintained for many years in close cooperation with the Crime Analysis Unit, Detective Division, of the Chicago Police Department. The CHD is a comprehensive database containing information on every homicide that occurred in Chicago between 1965 and 2000. In August 2005, staff completed a long-standing effort to update the dataset through 2000, and staff have been working to clean and archive the complete 36-year dataset. Staff continue to collaborate with selected researchers on projects involving use of the Chicago Homicide Dataset. A product of one of these collaborations, "Children's Risk of Homicide: Victimization Rates from Birth to Age 14, Chicago, 1965 to 1995" has just been published as an ICJIA Research Bulletin. Other CHD collaborations include the following:

- ~ "An evaluation of arson-associated homicide in Chicago," with Dallas Drake, a retired firefighter, submitted to *Homicide Studies*. A revised version, titled "When Arson is Fatal," will be submitted as an ICJIA Research Bulletin."
- ~ "Recent changes in young children's risk of homicide victimization," with Kim Vogt (University of Wisconsin). An update to: *Trends in Young Children's Risk of Homicide Victimization in Chicago, 1965-1995*. "Long-term trends in young children's risk of homicide victimization: Chicago, 1965-2000" with Kim Vogt (University of Wisconsin). Paper to be submitted to *Homicide Studies*.
- ~ "Murder of newborns and infants in Chicago: Patterns and implications for prevention" with Kim Vogt (University of Wisconsin). To be submitted as a Research Bulletin
- ~ "Patterns and contextual characteristics of fatal and nonfatal violence against the elderly," with Ronet Bachman, an expert on national elderly victim data, was presented at the American Society of Criminology in November.
- ~ "Homicide characteristics and developmental age: Victimization of infants and children under age five in Chicago, 1965-2000" with Kim Vogt (University of Wisconsin). To be submitted to *Homicide Studies*.
- ~ "Street gang-related homicides in Chicago, 1965 to 2004," with Tim Lavery and Megan Alderden of the Chicago Police Department, a work in progress.
- ~ "Killing little girls: homicides of girls aged infant to 14, Chicago 1965-1995," with Kim Vogt, University of Wisconsin. Research Bulletin in progress.
- ~ "Murder of newborns and infants in Chicago: patterns and implications for prevention," with Kim Vogt, University of Wisconsin.
- ~ "Homicides Committed by Children: Offenders under age 15 in Chicago, with Kim Vogt, University of Wisconsin, was presented at the American Society of Criminology in November.
- ~ "Concomitant Homicides: Others Who Die in Intimate Partner Confrontations," with Jen Rubin (Wisconsin Coalition Against Domestic Violence). Research Bulletin in progress.
- ~ "When an Elderly Person is Murdered: Circumstances of Homicides Against the Elderly in Chicago, 1965 to 2000" Research Bulletin in progress.
- ~ "Young Homicide Offenders in Chicago, Offenders Under Age 14, 1965-1995" with Kim Vogt (University of Wisconsin). Presented at the American Society of Criminology in November. To be submitted as a Research Bulletin

## **G. Program evaluation and research projects**

The R&A Unit pursues an aggressive program evaluation and research agenda through an in-house ADAA-funded grant program. Other evaluation and research efforts supported by the Authority include:

### **1. Evaluation of the Jackson County School-Based Probation Program**

Staff from the Center for the Study of Crime, Delinquency and Corrections at Southern Illinois University at Carbondale completed the evaluation of this probation project in September. The report provides an overview of the project and cites a number of issues and considerations that must be addressed by jurisdictions interested in implementing school-based probation. A final report has been received and a program summary describing the findings of the evaluation is complete and awaiting final review before publication.

### **2. Evaluation of moral reconnection therapy in the Franklin/Jefferson County Evening Reporting Center Program**

Staff from the Public Administration and Policy Analysis Department at Southern Illinois University at Edwardsville completed the evaluation of this probation project in October. The final report contains an overview of the implementation of the projects in the two counties and documents their respective strengths and weaknesses. It is currently available on our website. A Program Evaluation Summary of the full report is undergoing final review.

### **3. Lake County Domestic Violence Probation Program evaluation**

This is an impact evaluation of a specialized probation program in Lake County focused on domestic violence offenders, and is being carried out by Justice Research Associates. The project is a follow-up to an implementation evaluation recently completed by JRA and is focusing on the outcome differences between the program participants and a comparison group. A final report was received and is under review.

### **4. Study of disproportionate incarceration of minorities for drug crimes**

This project is a collaboration between the Authority and Loyola University Chicago, The John Howard Association and TASC, Inc. The study is examining the impact of sentencing laws and practices on the minority community, particularly in response to convictions for drug related crimes. Research bulletins planned include reports on national trends, drug law changes, the nature of addiction and treatment, the Illinois perspective on minority incarceration and policy recommendations. The first report in the series, dealing with the national perspective on the issue, has been published. The second and third reports are finalized and a fourth report will follow shortly.

## **5. Reintegration of gang offenders in the community study**

In collaboration with DePaul University's Department of Sociology, the Illinois Department of Corrections, and the Attorney General's Gang Crime Prevention Center, a small-scale, pilot study of the reintegration process has been conducted. The study is largely qualitative, examining how gang & non-gang offenders go about reintegrating into their communities of origin. A final report is available.

## **6. Community Mobilization: Best Practices and Lessons Learned**

This project involves the development of a series of four research briefs on different aspects of the Attorney General's Gang Crime Prevention Center Community Mobilization Program. The first of four research briefs is available on the topic of resident decision making versus representativeness in the community. The remaining report topics include the evolution of program implementation, resident involvement/coalition building and integration into the surrounding community. These reports are available and staff have completed a summary report that is awaiting final review prior to publication.

## **7. Returning home: understanding the challenges of prisoner reentry in Illinois**

The Urban Institute developed four policy briefs synthesizing findings from four waves of prisoner interviews, interviews with family members, focus groups with residents, and interviews with stakeholders to present the first systematic understanding of the process of prisoner reentry and the specific issues and challenges associated with reentry in Chicago. The briefs, Health & Prisoner Reentry, Employment & Prisoner Reentry, Reentry & Residential Mobility and Treatment Matching are available on the ICJIA and Urban Institute web sites. Past reports, available on the Urban Institute's website ([www.ui.urban.org](http://www.ui.urban.org)), include: *A Portrait of Prisoner Reentry in Illinois*, and a Research Brief entitled, *Illinois Prisoners' Reflections on Returning Home*. The most recent report, *Chicago Prisoners' Experiences Returning Home*, was made available in December 2004.

## **8. Illinois Going Home Program Evaluation**

The University of Chicago is conducting an implementation and preliminary impact evaluation of the Illinois Going Home Program. The program is a major offender reentry effort funded through a partnership of contributing federal agencies and in concert with a number of Chicago-area government, community and faith-based organizations. The evaluation will determine if the program was implemented as designed, how it worked in the field and the effectiveness of the program. Evaluators completed a one-year interim report in September. This report identified a number of recommendations for increasing enrollment that Going Home staff are currently implementing. The final report is due in April 2006.

### **9. Circuit Court of Cook County, Department of Social Services, Domestic Violence Intervention Program**

This project was conducted by University of Illinois at Chicago under the direction of Larry Bennet and the West Side Domestic Abuse Project (WSDAP) in collaboration with the Social Service Department of the Circuit Court of Cook County. In 1999, UIC and WSDAP developed an assessment tool for batterers aimed to increase the safety of victims and improve the ability of staff to identify men who are at high risk and intervene to reduce their risk by assertive case management. This project used existing Cook County PROMIS data and supplemental data collected from case records on men participating in the Domestic Violence Intervention Program. Researchers collected longitudinal data on predictors of attrition and outcomes for men who batter that can be used by policy makers and staff to improve intervention services. Researchers also contributed important information to the larger criminal justice and violence against women communities about the effectiveness of justice-based intervention with batterers. A final report on this project is on the Authority website and a Program Evaluation Summary of this report is in review.

### **10. An Evaluation of the Chicago Police Department's CLEAR Initiative – Phase II**

The third evaluation report on the status of the new information technology enterprise system under development by the Chicago Police Department (CPD) is now available on the Authority web site. The state-of-the-art integrated criminal justice information system, "Citizen and Law Enforcement Analysis and Reporting (CLEAR)," is designed to provide anytime, anyplace access to vast repositories of centralized, relational data. The data warehouse is the engine that powers the numerous interrelated applications that comprise CLEAR. This report describes all CLEAR initiatives, the "launch procedures" that lie behind them and their impact on policing. The report describes this ongoing process through October 2004 and details the efforts aimed at the introduction of high-priority applications, and the resources and processes needed to develop and implement the major components of CLEAR. A program evaluation summary has been drafted and is currently awaiting publication. A separate report on CPD's efforts against violent crime is available on our website.

### **11. Analysis of datasets maintained/available through the Authority**

In addition to collaborative research projects using the Chicago Homicide Dataset or the Chicago Women's Health Risk Study, R&A staff have also collaborated with external researchers on two projects that focus on the analysis of InfoNet data. InfoNet is a database that maintains information from victim service providers and agencies.

- The first project, under the direction of Loyola University's Dr. Susan Grossman and Dr. Marta Lundy, focuses on the analysis of sexual abuse data and will provide much needed information on those that seek help and services for sexual assault in Illinois. The research questions focus on the adult survivors and victims of sexual assault and abuse and will detail the following: basic demographics and income sources, relationship between the client and abuser, characteristics of the abuser, issues and circumstances of the abuse/assault, special needs, referral sources, experience

with medical services, intensity and duration of support and social services, and legal actions taken in response to the abuse/assault. In addition, this project will generate a template for victim service centers to use so that they can complete a center-level analysis based on the study's statewide and regional analyses. This report is under review.

- An additional project under the direction of Dr. Karla Fischer will focus on information on those that seek help for domestic violence in Illinois. The study will include a profile of victims, offenders and children, and the types of services they seek and ultimately receive. The profiles will be generated on three levels—the individual service providing agencies, communities and the state. The findings will aid in identifying underserved populations and unmet social service needs in the area of domestic violence services. The draft report has been received and is under review.

Also, a request for proposals was developed for the analysis of other datasets available through the Authority. Three small-scale research projects seek to answer research questions on data from the Illinois Crime Victimization Survey and the 2000 Probation Outcome Study. They include:

- “Analysis of Crime Victimization Data – Rate and Nature of Victimization and Utilization of Resources,” by Dr. Amanda Mathias Humphrey of Southern Illinois University Carbondale. The study on the CVS data determines the level of victimization in Illinois, differences in victimization, reporting practices and demographic differences, use of services and demographic differences in service utilization. The report is awaiting final edits.
- “Analysis of Crime Victimization Data – Violent Crime and Victim’s Gender,” by Dr. Callie Rennison of the University of Missouri St. Louis. This analysis will address whether individual and family level correlates of nonfatal victimization differ by gender, whether these correlates differ by type of nonfatal violent crime and whether they differ depending on the victim and offender relationship. This report was received in September and is available
- “Analysis of Drug Use, Treatment and Probation Outcomes,” by Dr. Beth Hueber of the University of Missouri at St. Louis. This project will identify the characteristics of drug-involved probationers, the prevalence of participation in treatment and the effect of treatment on probation outcomes. This revised report was received in December and is available.

## **12. Safe Haven Domestic Violence Program evaluation project**

Staff are evaluating the Chicago Safe Havens demonstration site, a project funded under the Supervised Visitation and Safe Exchange Grant Program. The Safe Havens Program was established by the Violence Against Women Act of 2000 to provide an opportunity for communities to support supervised visitation and safe exchange of children, by and between parents, in situations involving domestic violence, child abuse, sexual assault, or stalking. The purpose of the supervised visitation program is to enable custodial parents to comply with court ordered visitation, without having to fear that they or their children will be re-victimized. Staff has identified the following priority areas of the evaluation: interviews with visitation center directors and staff and interviews with the Local Consulting Committee members (to determine changes in practice in policy and roles as collaborators), the issue of case termination (to determine why cases come to a close and what can be done in cases where visits should

continue, but do not), observation forms used by staff at visitation centers during visits as well as other data collected in client files. Data from these forms, together with data collected through interviews can help determine how accurately these forms reflect what happens during visits. Other client information found in their files can help identify who is referred to visitation services from court, how rule violations are handled, and in terms of termination, whether or not clients fail to show up for services, if they terminate visits due to court order, etc. Focus groups will be held with family court attorneys to help determine how the referral process works and help identify problems or barriers that occur in the courtroom and surveys will be distributed to family court judges to determine what they know about supervised visitation and how they determine who is eligible or will benefit from these services. Staff have completed IRB applications and hope to begin data collection this winter.

### **13. Criminal justice agencies Needs Assessment Survey project**

Orbis Partners has been selected to conduct a criminal justice needs assessment in Illinois. The primary purpose of this study is to supply information that will demonstrate the needs of criminal justice organizations, and identify areas that need improvement. The information will also be used to guide decision-making regarding where to best allocate resources. A secondary purpose of this study is to provide information that outlines if, and how, the needs of criminal justice organizations have changed over time by comparing the data collected as part of this study to the results of a needs assessment survey conducted in 1996. Major components of the criminal justice system will be surveyed on topics such as workload demands, training needs, staff retention, information systems and programming. The survey was released in September and data collection ended in November. A final report is expected in May 2006.

### **14. Chicago Public School Peer Jury Program evaluation project**

Florida Atlantic University has been selected to evaluate the Chicago Public School's Peer Jury Program and its operation and development during the 2003/2004 and 2004/2005 school years. The study will focus on three schools that implemented the program, but will also involve the collection of some general descriptive data pertaining to the program as a whole. The evaluation will assist program practitioners and technical support staff in improving the program, and assist Chicago Public School's administrative staff in making future decisions regarding the program. In addition, the study will contribute to the literature examining restorative justice and related programming. A final report is available and a summary is forthcoming. A follow-up evaluation was approved and began in January.

### **15. Evaluation of IDOC's Sheridan Correctional Center Therapeutic Community Program**

Research & Analysis staff are continuing to support the operation of the Sheridan Correctional Center through a process and impact evaluation. We are pleased to report that Mark Powers has joined our staff to work as the Research Assistant to this project. Open since January 2004, Sheridan operates as a fully dedicated therapeutic community for inmates in need of substance abuse treatment. Sheridan is the largest treatment prison in the county. The evaluation of

Sheridan is a collaborative effort between the Authority and the Illinois Department of Corrections, and is guided by an Evaluation Advisory Committee. The process and impact evaluation involves extensive quantitative data collection and qualitative information from focus groups and interviews with staff and participants. The evaluation will seek to measure changes in participant attitudes, beliefs and psychological functioning, in addition to participants' preparedness for release. The study will also examine the extent and nature of institutional violations and measures of recidivism after release. Employment and access to services will also be studied. A summary of the project was released in October 2004 as a Program Evaluation Summary report, and Authority staff have completed analyses assessing program impact after two years of operation. A research bulletin will be published in spring of 2006.

#### **16. The Impact of Methamphetamine on Illinois Communities: An Ethnography**

A final report by Dr. Ralph Weisheit of Illinois State University was submitted in October. The report documents site visits and interviews that examine the effects of methamphetamine in Edgar and Clark counties. The report address several research questions, including: What is the impact of methamphetamine on rural communities; What resources in rural communities can be brought to bear on the problem of methamphetamine; and, What additional resources might facilitate an effective response to the problem? The report was made available on the ICJIA website in December of 2004. A Program Evaluation Summary is available.

#### **17. Evaluation of Redeploy Illinois sites**

A request for proposals was issued in November for the evaluation of two Redeploy Illinois sites. The first site, in Macon County, provides a series of services and treatments in an effort to keep juveniles in the community and out of the Illinois Department of Corrections. The second site, in the Second Judicial Circuit, also employs treatment and includes Multi-Systemic Therapy, Functional Family Therapy and Aggression Replacement Training to keep youth in the community. Powered Performance, a Wheaton-based research and consulting firm, was awarded the contract to evaluate both Redeploy sites. The final report draft was received in December and is under review.

A request for proposals was issued in January for the evaluation of two new Redeploy Illinois sites in Peoria and St. Clair Counties. Southern Illinois University-Carbondale was awarded the contract to evaluate these Redeploy sites. Evaluation work is expected to begin in early March 2006.

#### **18. An evaluation of Illinois-Citizen Law Enforcement Analysis and Reporting (I-CLEAR)**

The evaluation of I-CLEAR has been awarded to Northwestern University. The evaluation will assess the statewide implementation of the CLEAR reporting system operating under the Chicago Police Department. I-CLEAR will offer a statewide criminal justice information system that is accessible to all of Illinois' criminal justice agencies. The two-year assessment began in May 2005.

## **19. Analysis of ICJIA datasets II**

Three projects on the analysis of in-house data began in January. These 12-month projects include:

- Analysis of Methamphetamine and Domestic Violence in Illinois under the direction of Dr. Gaylene Armstrong at Southern Illinois University.
- Victim Characteristics and Reporting Violence to the Police (Illinois Crime Victimization Date) under the direction of Dr. Callie Rennison of the University of Missouri at St. Louis.
- Comparing Risk Factors Associated with Violent and General Recidivism while on Probation and After Discharge – Implications for Risk Management under the direction of Dr. Loretta Stalans and Dr. Paul Yarnold.

## **20. Lake County Transitional Services for Female Offenders (PTSD)**

Loyola University, under the direction of Dr. Loretta Stalans was awarded the grant to evaluate the Lake County probation program that provides specialized services to women probationers who exhibit post-traumatic stress disorder. The evaluation began in January.

## **21. Cook County Social Services, Transitional Services for Female Offenders**

Southern Illinois University at Carbondale, under the direction of Dr. Gaylene Armstrong was awarded the grant to evaluate the Cook County Social Service Department program that provides specialized services to women probationers that are convicted of DUI. The evaluation began in January.

## **H. Externally-funded research and evaluation projects**

R&A staff have been successful in the pursuit of external discretionary grants to support research and evaluation efforts. Several current projects are or were supported by such grants:

### **1. Chicago Women's Health Risk Study (CWHRS)**

Funded by NIJ with substantial in-kind support from the Authority and other collaborating agencies, the Chicago Women's Health Risk Project is a continuing collaboration of medical, public health, and criminal justice agencies, and domestic violence experts to identify factors that indicate a significant danger of life-threatening injury or death in situations of intimate partner violence. Collaborating agencies include the Chicago Department of Public Health, Erie Family Health Center, Cook County Hospital, Chicago Mayor's Office on Domestic Violence, Cook County Medical Examiner's Office, Chicago Police Department and the Authority. Project research included detailed interviews with abused women sampled as they entered a hospital, clinic, or health center for treatment, as well as interviews with people who knew victims of intimate partner homicide.

By comparing data on abused women with similar data on women who have been killed by or who killed an intimate partner, the project helps agencies develop collaborative ways to identify and respond to potentially life-threatening intimate violence situations. A follow-up study looked at the effects of community capacity to determine whether the violence stopped or declined in the abused women's neighborhoods. The research provides vital information to beat officers, clinical staff, and other decision-makers in the field. A number of reports, journal articles and other publications have been developed from the research. Staff is frequently solicited for presentations and briefings on the research and project tools, and data continue to be requested for use by other researchers. Current collaborations on reports from CWHRS include:

- ~ "Risk factors for femicide-suicide in abusive relationships: Results from a multi-site case control study" (with Jane Koziol-McLain, Auckland University of Technology, New Zealand, Daniel Webster, Johns Hopkins, Judith McFarlane, Texas Women's University, Yvonne Ulrich, University of Washington School of Nursing, Nancy Glass, Oregon Health and Science University, Jacquelyn C. Campbell, Johns Hopkins). *Violence and Victims* (June, 2006).
- ~ "Intimate partner femicide against older women" (with Yvonne Ulrich, University of Washington School of Nursing, Jacquelyn Campbell, Johns Hopkins University, and Linda Teri, University of Washington School of Nursing). Paper to be submitted to the *Gerontologist*.
- ~ "Intimate partner violence during pregnancy: Outcomes for mother and child" (with Phyllis Sharps, Johns Hopkins, Kathryn Laughon, University of Virginia School of Nursing and Jacquelyn C. Campbell, Johns Hopkins). Submitted to *American Journal of Preventive Medicine*.
- ~ "Forced sex during and after exiting intimate relationships: Results from the Chicago Women's Health Risk Study" (with Walter DeKeseredy, University of Ontario Institute of Technology). Submitted to *Women's Health and Urban Life*. Also submitted for presentation to the SSSP (Society for the Study of Social Problems) meetings, August, 2006.
- ~ "Intimate partner violence and miscarriage: Examination of the role of physical and psychological abuse and PTSD" (with Leslie A. Morland, National Center for PTSD, Honolulu, Gregory A. Leskin, National Center for PTSD, Palo Alto, Jacquelyn C. Campbell, Johns Hopkins, and Matthew J. Friedman, National Center for PTSD and Dartmouth Medical School). Submitted to *Journal of Interpersonal Violence*.
- ~ "Non-fatal strangulation is an important risk factor for attempted and completed femicide" (with Nancy Glass, Oregon Health and Science University, Kathryn Laughon, University of Virginia, Jacquelyn C. Campbell, Johns Hopkins, and Ginger Hanson, Oregon Health and Science University). Under review, *Journal of Emergency Medicine*.
- ~ "A comparison of African-American and Latina women's decisions about help-seeking for intimate partner violence" (with Heather Bourne, University of Massachusetts, Amherst). Submitted to *Psychology of Women Quarterly*.
- ~ "Seeking help from the police: Battered women's decisions and experiences" (with Kim Davies, Augusta State University and Jacquelyn Campbell, Johns Hopkins), *submitted to A Critical Journal of Crime, Law and Society*.
- ~ "The prevalence of PTSD among women experiencing intimate partner violence depends on seriousness, continuation and social support network" (with Gregory A. Leskin, National Center for PTSD, and Jacqueline Campbell, Johns Hopkins). Research Bulletin in progress.
- ~ "Risk factors for serious injury or death in intimate partner violence for Latina/ Hispanic women" (with Eva Hernandez and Sara Naureckas, Erie Family Health Center). Paper in progress.

- ~ "Are stepchildren in the home a risk factor for intimate partner homicide?" (with Todd Shackelford, Florida Atlantic University). Paper in progress.
- ~ "PTSD in battered African American Women" (with Esther Jenkins, Chicago State University). Paper in progress.
- ~ "Risk of women becoming an offender in intimate partner homicide" (with Esther Jenkins, Chicago State University). Paper in progress.

## **2. Juvenile justice system and risk factor data: 2003 Annual Report**

Supported by a grant from the Illinois Juvenile Justice Commission, R&A compiled county-level juvenile justice system and risk factor data into a single data report. This report also briefly summarizes recent trends in these data over time. An additional feature of this report is an emphasis on emerging juvenile justice system issues in Illinois, including Balanced and Restorative Justice, the Illinois Juvenile Detention Alternatives Initiative, Disproportionate Minority Contact, and Redeploy Illinois. A draft final report is currently undergoing internal review.

## **3. Juvenile justice system and risk factor data: 2004 Annual Report**

Supported by a grant from the Illinois Juvenile Justice Commission, R&A staff has begun work on a 2004 version of the Annual Report. Staff is compiling county-level juvenile justice system and risk factor data into a single data report. Like the previous report, this version will also briefly summarize recent trends in these data over time and discuss emerging juvenile justice system issues in Illinois, including Balanced and Restorative Justice, the Illinois Juvenile Detention Alternatives Initiative, Disproportionate Minority Contact, and Redeploy Illinois.

## **4. Evaluation of the Administrative Office of the Illinois Courts Evidence-Based Practices**

In March of 2005, ICJIA research staff entered into a three-year cooperative agreement with the National Institute of Corrections (NIC) in the amount of \$194,232 to evaluate Illinois' Evidenced-Based Practices (EBP) Initiative. This project will assist local probation departments participating in the EBP Initiative by providing them with data and analysis that gauges performance before and during the implementation of evidence-based practices, and will establish a process and protocol for ongoing assessment of probation performance through an effective state and local partnership. Data collection has begun in one pilot site, Lake County.

## **I. New Projects (Clearinghouse)**

### *Web-based training curriculum (Breeze)*

Staff continue to explore development of a web-based application that will serve as a medium to users to present interactive training curricula for criminal justice practitioners, social service professionals, and the general public.

### *Web-based Application for methamphetamine lab reporting*

Staff received a SAC grant to develop a web-based application that would provide technical assistance to local law enforcement agencies in Illinois to allow on-line reporting of clandestine methamphetamine laboratory seizure data.

### **III. GRANT PROPOSALS**

R&A staff routinely pursues discretionary grants to support data collection, research, and evaluation activities. Frequently these projects involve collaborations with universities and/or other criminal justice agencies.

State Justice Statistics (SJS) Program. Staff is preparing a proposal to support a replication study to identify research utility and the quality of criminal history records as compared to uniform crime reports.

Sexual Exploitation of Juveniles in Illinois. Staff are applying for a grant through the Office of Juvenile Justice and Delinquency Prevention to support their ongoing research on the commercial sexual exploitation of juveniles in Illinois. The research would consist of an analysis of arrest records, and surveying and convening focus groups involving professionals who work with prostituted juveniles, in order to develop a better understanding of the scope of juvenile commercial sexual exploitation in Illinois.

Train the Trainer on Elder Abuse. Staff are working with the Chicago Department on Aging and the Chicago Police Department to apply for funding to increase training of police officers about elder abuse. We hope to offer our Breeze capabilities to assist with the sustainability of the project.

### **IV. ONGOING STAFF DEVELOPMENT/TRAINING**

- Staff continue to conduct and/or take part in a variety of staff development and training programs and projects. These include: (a) observations/site visits to several key criminal justice agencies; (b) peer review process for project development and pre-publication; (c) partnerships with the academic community; (d) training classes including basic SPSS use, Microsoft Project.
- Several R&A staff are actively pursuing advanced academic degrees in graduate programs and post-graduate programs. Some also serve as adjunct faculty in criminal justice and other social science programs.
- At each monthly R&A Unit meeting, staff or guest speakers present summaries of projects for which they are involved in order to keep abreast of current research efforts in the R&A Unit.
- Staff are participating in a voluntary Brown Bag Journal Club lunch meeting. Staff take turns presenting a summary of a current journal article or pertinent research in the field on the third Tuesday of every month.

Please feel free to contact me if you would like further information on any of these activities.
