Welcome to CLEARpath!

Welcome to the Chicago Police Department's CLEARpath site which offers the community a means to share important information, find the latest news, programs and community oriented services that the Department offers. Since the inception of the Chicago Alternative Policing Strategy (CAPS), the partnership between the Department and the community has proved overwhelmingly positive as we share responsibility to keep our neighborhoods safe. With your continued assistance, this approach to joint problem solving will continue to be an effective tool to fight crime throughout the city.

To continue to provide resources that help the Department connect with the community, the Chicago Police Department's CLEARpath web site offers various online resources that help community members learn more about their Districts, Beat Meetings and Events, learn how to protect themselves against crime, report crime anonymously, get reports, and chat with the Department.

Community Concerns

A community concern can be defined as a concern or issue brought to the attention of the Chicago Police Department by residents of the community. It should be criminal, quality of life or neighborhood disorder in nature, which affects more than one person and should be addressed by the police, city services and the community.

By working together, the police and the community can address concerns and prioritize crime and disorder by sharing the responsibility for the development and implementation of proactive problem solving strategies to identify chronic issues. Our objective is to develop an approach which successfully conquers and eliminates each concern in order to provide a more appropriate way of effectively responding to neighborhood problems.

The police in each geographical district are working in collaboration with various members of the community, both business and residential to provide advice and explore different ways of decreasing incidents and fear of crime within their communities.

To learn more about how you can help, contact your local CAPS office. All participation is welcome!
